ENVIRONMENTAL POLICY

At CNT Conta Elastik Ürünler A.Ş., we adopt an environmentally responsible manufacturing approach based on our sustainability principles of “Protect the Planet” and “Use Resources Efficiently”.

Within the framework of our ISO 14001 Environmental Management System, we manage our activities with a holistic approach in order to control their environmental impacts, support sustainable development, maintain customer satisfaction and product quality, and fulfil our compliance obligations.

In line with this commitment, we undertake to:

- Comply with applicable environmental legislation, compliance obligations, and relevant customer, supplier and other third-party requirements in the countries where we operate;
- Protect the environment, including pollution prevention, by taking the necessary measures to reduce adverse environmental impacts arising from our activities, products and services;
- Use natural resources efficiently, minimize water and energy consumption, and improve recycling and recovery performance in line with our zero-waste approach;
- Minimize waste generation and improve reuse practices in line with our waste management and circular economy principles;
- Consider environmental impacts during investment and design processes and promote environmentally sound and energy-efficient technologies;
- Monitor environmental risks and opportunities, establish preventive measures, and periodically review our environmental performance;
- Strengthen environmental awareness, competence and participation through training and awareness activities for our employees;
- Work in cooperation with relevant interested parties to promote an environmentally responsible management approach; and
- Continually improve the environmental management system in order to enhance environmental performance.

This policy is communicated to persons working for or on behalf of the organization and is made available to relevant interested parties.
